### (54) AUTOMATIC JOURNAL SAVING SYSTEM AFTER UPDATING DATA BASE

#### (57)Abstract:

PURPOSE: To automatically save and initialize a post-update journal file in the output of a post-update journal during the operation of a data base.

CONSTITUTION: When the post-journal (a post-update journal file A108, for example), which a post-update journal output means 102 outputs, is overflowed when the data base is updated, a post-update journal file swap means 103 swaps the journal file with a post-update journal file B109, for example. When swapping terminates, a post-update journal file saving means 105 saves the post-update journal which is overflowed in a post-update journal file saving A' on a magnetic disk, for example, and initializes it by a post-update journal file initialization means 107. When there is no free space in the magnetic disk, a data base file saving means 120 saves a data base file in a data base file saving 121.
